Dear Sir,

It was a great pleasure to meet with you at your home in Moscow on May 25th, 2009. I very much appreciated your hospitality, kindness and patience in reviewing the report presented to you, which summarised C.En's various developments and achievements thus far.

I was very much moved by your words of support for C.En's project, especially in light of the fact that it was you who encouraged me in the early development of this project. C.En is greatly indebted to your vision and foresight.

Over and above this I greatly value your acceptance of the position of Honorary President at C.En Ltd. I believe that your continual support both is and will be a great factor in the advancement of C.En technology.

Yours Sincerely,
